iR110VPe
Black & White Professional
Print Systems

Outstanding performance from Canon

The dependable iR110VPe is a high speed print system that's a cost effective introduction to the power of digital technology.

Capable of a super-quick 110 prints-per-minute and volume production of up to

3,6 million prints per month, it's a machine that thrives on responsibility. Configurable with up to 12,000 sheets in-line from nine different sources, and catering for throughput of up to 266 gsm in weight, it's the ultimate machine for high volume digital print production environments.

A modular production system, allowing you to select a configuration to maximise productivity in your own environment.

iR110VPe

Specifications **IR110VPE**
